The Draft Final FS and ES Reports are scheduled for submittal to LANTDIV and the Activity during the week of August 2, 1993.

Baker anticipates receiving LANTDIV/Activity comments on the Draft Final documents, if any, between August 9 and 11, 1993, in order to allow for revisions, if needed, such that amendment pages can be forwarded to LANTDIV and the Activity for incorporation into previously submitted documents. Baker will modify TRC member copies of the Draft Final documents prior to distribution which is anticipated to be on or about August 13, 1993.

Baker understands that the Activity desires to have project documents submitted to TRC members with a cover letter using NAVBASE letterhead. Please advise Baker when a final TRC list is developed for the Camp Allen RI/FS.

Baker is pleased to provide continuing technical support at the Camp Allen Landfill Site, and looks forward to completing Draft Final reporting activities. Should you have any questions, please do not hesitate to call me at (412) 269-2017.

Sincerely,

BAKER ENVIRONMENTAL, INC.
